

# East College Station Transportation Study

[www.cstx.gov/TranStudy](http://www.cstx.gov/TranStudy)

The City of College Station is evaluating our transportation system on the east side of College Station (see map on reverse).

East College Station residents, property owners, land developers, business owners and patrons are invited to attend a public workshop to help identify concerns and opportunities in the area.

At this meeting, the consultant will provide a brief introduction to the study goals, objectives and process. Then, participants will be grouped at tables, where a facilitator will guide discussion of additional desired goals and objectives of the Study. You will then have an opportunity to identify traffic congestion issues, traffic safety concerns, neighborhood traffic issues, bike/pedestrian opportunities and share ideas. Participants will be asked to mark thoroughfare alternatives on maps and note issues, concerns and opportunities in the area. The goal is to give us your input, so that we can create a plan that will meet both the mobility and safety needs in east College Station, and satisfy the desires of the residents, property owners and patrons in the area.

Your participation is fundamental to the successful completion of the study.

---

**Initial Public Workshop**

Thursday, March 29, 2007 at 6:30 p.m.

Christ United Methodist Church-Annex

4203 State Highway 6 South, College Station, TX

---

**Follow-Up Public Meeting**

Tuesday, April 17, 2007 at 6:30 p.m.

Christ United Methodist Church-Annex

4203 State Highway 6 South, College Station, TX

---
